

VOYAGE MANAGER: A NEW APPROACH TO CORPORATE SOCIAL RESPONSIBILITY (CSR)

(London, 29 July 2010) Voyage Manager aims to help corporations balance the social, economic and environmental impact of their business travel programs.

Worldwide, new legislations, such as the Corporate Manslaughter and Corporate Homicide Act in the U.K., have highlighted the need for companies to rethink their travel risk management programs. Failure to do so could prove damaging financially, legally and also reputation wise.

Voyage Manager takes employers' Corporate Social Responsibility and their Duty of Care seriously. Voyage Manager believes that in order to mitigate travel risk, a responsible company must be able to monitor its employees' movement anywhere and at anytime.

Voyage Manager's solution allows security managers to be informed automatically should a traveller not arrive at a destination or if the traveller sends an SOS to Voyage Manager. This allows security managers to activate emergency procedures at an early stage and therefore minimize the impact of any unforeseen events.

Accessible from any location by web, SMS and mobile phone, Voyage Manager is a flexible, easy to use and cost efficient platform for managing and monitoring employee travel.
