

VOYAGE MANAGER SIGNS DEAL WITH INNOVATA

(Cambridge, 1 March 2011) Voyage Manager, one of the world's most effective travel monitoring and security tools has signed a deal with Innovata LLC, to provide Voyage Manager with flight scheduling data.

Voyage Manager has integrated with Innovata, enabling them to access up to date flight scheduling data. This greatly reduce the time users spend maintaining their travel details, helping to reduce costs as well as decrease the occurrence of errors during the data entry process.

Voyage Manager has previously integrated with travel booking systems (GDSs) and flight status systems. Voyage Manager can automatically track travellers' trips, with almost no user interaction. Voyage Manager can fetch the trips from the booking systems, and then automatically track the trips until they have been completed.

About Voyage Manager

Voyage Manager is a Cambridge based travel technology company. The company provides web based travel management and travel security solutions that give businesses a flexible, easy to use and cost efficient platform for managing and monitoring employee travel. Voyage Manager is an automated systems that are accessible from any location by web, SMS and mobile phone.

Voyage Manager's travel management solutions automatically monitor trips from the moment they are entered into the system until they have been completed, keeping travellers and relevant parties informed at every stage of a trip. Should a traveller not arrive at a destination, or the traveller sends an SOS to the system, security managers can be informed immediately and emergency procedures can be activated. The latter is becoming increasingly in focus as international business and operations are more frequently requiring people to travel to, from and through potentially hazardous areas.
